

Iryna Tereshchenko

Ui/Ux Designer

Junior designer with a strong interest in user-centered interface design and digital products. I have experience in creating wireframes, responsive layouts, and structured interfaces through practical design projects. I enjoy working with design systems and improving usability through clear, thoughtful layouts. I am motivated to grow professionally and apply design skills to real products.

English — Pre-Intermediate

Ukrainian — Native

Project experience

Barber Studio Website Redesign – Concept Project

<https://www.behance.net/gallery/243819193/Redesing-Barber-Studio>

The goal of the project was to redesign a barber studio website by improving visual hierarchy, navigation, and overall usability.

- Analyzed competitor websites and identified common usability issues.
- Improved information structure and page layout.
- Created wireframes for key sections.
- Designed a modern UI and responsive layouts for desktop and mobile.

Tools: Figma

Result: A clean and structured interface that improves content clarity and makes it easier for users to explore services and contact the studio.

Work Experience

Self-Employed Beauty Specialist (Lash Artist & Makeup Artist)

Kyiv region, Ukraine | 2012 – 2025

- Managed the full client journey: consultation, service delivery, after-care and follow-up support
- Built and maintained a loyal client base through high-quality service and personalized communication
- Collected and analyzed client feedback to improve service quality and customer experience
- Handled scheduling, payments, records, and service documentation
- Resolved client issues and complaints in a professional and empathetic manner
- Maintained strict quality standards and attention to detail in every service
- Worked independently, managing time, priorities, and business operations
